QUALITY POLICY

Our purpose at Turk Prysmian Kablo ve Sistemleri A.Ş (Turkish Prysmian Cables & Systems Co.) is to ensure our customer's, our employee's and our partner's satisfaction while maintaining our leader position in quality product and service delivery in energy and communication fields.

In line with the foregoing purpose, our Quality Management System is constantly improved on basis of applicable legal requirements, national and international standards and customer demands.

To further reinforce the efficiency of our Quality Management System, due diligence is attached to training our employees. In addition, work environment and factory infrastructure are improved to meet changing requirements.

Quality targets are the most important tool that we make use of in line with the constant development principle. Measurable quality targets are determined on yearly basis in parallel with the targets of Prysmian Group and reviewed by the management.

Our suppliers are selected in the light of Prysmian quality approach and relationships are developed as a part of the system and maintained on basis of mutual trust and cooperation.

Total Quality Management, Total Productivity Management and Constant Improvement philosophies are adopted and in place throughout our organization to ensure systematic and productive quality awareness.

Realization of Quality Management and ensuring sustainability and constant improvement thereof is the duty and obligation of all personnel of Turk Prysmian Kablo ve Sistemleri A.Ş (Turkish Prysmian Cables & Systems Co.).

Francesco FANCIULLI
CEO
